## DISCUSSION (50 MINS)

- Worship and Prayer
- Read Bible verses: Romans 2:14-16. Explain what the verses mean based on what Pastor Ta said in his sermon.

### How can we know what is wrong?

***If God's Word says something is wrong, then it is wrong.***

There are two ways we can know if something is wrong. One way is by seeing what the Bible says about it. If God's Word says something is wrong, then it is wrong, no matter what others may say about it. For example, we know that it is wrong to steal because God's Word says, "You shalt not steal."

***A second way we can know what is wrong is by listening to our conscience.***

A second way we can know what is wrong is by listening to our conscience. Our conscience is like a little voice inside of us that tells us what God thinks about a matter. Our conscience will do two things for us:

1. Our conscience will tell us when we have done something wrong.
2. Our conscience will warn us that something is wrong before we do it.

Our conscience is a wonderful gift from God and we should learn to listen to our conscience and obey it.

### How to obey your conscience

In obeying your conscience, there are two simple rules to follow:

1. If you have done something wrong, CONFESS IT TO GOD at once.
2. If your conscience warns you that something is wrong, DON'T DO IT!

### Whatever God tells you to do in your conscience, do it.

The Lord wants us to obey Him. Let us consider these two rules in obeying our conscience.

1. If you have done something wrong, confess it to God at once! When you do something wrong, you will have an uneasy feeling inside. This is your conscience telling you that you are wrong.
2. When your conscience tells you that you have done something wrong, confess it to God at once. 1 John 1:9
3. When we confess our sins to God, He forgives us and makes us clean again in His sight. 1 John 2:1

### If your conscience warns you that something is wrong, don't do it!

Your conscience not only tells you when you have done something wrong, but it also warns you when you are about to do something wrong. It lets you know that this thing you are thinking of doing is not pleasing to the Lord and you should not do it.

### When your conscience tells you that a certain thing is wrong, don't do it.

Your friends may be doing it and they may tell you that there is nothing wrong with it. But if your conscience tells you that something is wrong then it is wrong for you to do it, no matter what others may say. Remember, you have a conscience which tells you what is right and what is wrong for you. You must obey your conscience, regardless of what others may be doing.
